

To integrate the calendar shop on your website you need to copy a piece of code into the <body> of the HTML code of your website. The code of the iframe is:

```
<iframe src="CALENDAR SHOPLINK URL" border="0" frameborder="0"
seamless="seamless" style="width: 100%; min-height: 950px; overflow-y:
auto;"></iframe>
```

Be sure to put the calendar shop link URL in the place where it says **CALENDAR SHOPLINK URL**. It's possible to change the size of the Iframe by changing the *width* and the *min-height*.

Automatic resizing of the iframe

If you would like the size of the calendar shop to be automatically resized to the optimal size in the frame, you can add the following code to your web page instead of the code above:

```
<iframe id="cm-calendarshop" src=" CALENDAR SHOPLINK URL " frameborder="0"
width="100%"></iframe> <script src="https://cdnjs.cloudflare.com/ajax/libs/iframe-
resizer/3.2.0/iframeResizer.min.js" type="text/javascript"></script> <script>iFrameResize({
log: false }, '#cm-ticketshop');</script>
```
